Growify Digital

AI GENERALIST PRACTICAL ASSIGNMENT • SUBMISSION SUMMARY

Role: AI Generalist & Lead Full-Stack Strategist
Date: October 2026
Local Production Server: `http://127.0.0.1:3000/`

18 ROUTES BUILT & VERIFIED

> *"Growify builds connected commerce and growth systems for ambitious fashion, couture, jewellery, and lifestyle brands."*

1. STRATEGIC POSITIONING & VALUE PROPOSITION

Growify Digital LLP (founded 2019 in New Delhi by Rishab Mehra and Disha Bhatnagar) is repositioned from an isolated performance marketing agency into an integrated commerce, growth, and technology partner. Rather than treating storefront development, customer acquisition, and retention as fragmented silos, Growify connects the full luxury commerce flywheel:

1. STOREFRONT ARCHITECTURE

- Shopify Plus & bespoke Liquid engineering.
- Sub-1.2s mobile loading; international multi-currency.

2. ACQUISITION & CREATIVE ENGINE

- High-ROAS Meta and Google ad campaigns for high AOVs.
- Art-directed luxury fashion creative and organic search.

3. RETENTION & WHATSAPP CONCIERGE

- 18-hour live sales concierge (9:00 AM – 3:00 AM IST).
- Automated VIP lifecycle flows in Klaviyo & QuickReply.

4. IN-HOUSE TECHNOLOGY ECOSYSTEM

- **Lookify:** Production virtual try-on (90% success rate).
- **Rossify (Beta) & Craftify (Concept):** Workflow and AI tools.

2. QUALITY ASSURANCE & TECHNICAL VERIFICATION RESULTS

VERIFICATION ITEM	TARGET REQUIREMENT	RESULT	STATUS
Production Build	`npm run build`	Compiled in 5.10s (dist/ index.html 3.51 kB, js 420 kB, css 40 kB)	PASS
TypeScript Validation	`npx tsc --noEmit`	0 type errors, 0 compilation warnings	PASS
Route Coverage	All 18 required paths	18/18 routes return HTTP 200 OK without console errors	PASS
Dead Link Scan	Zero broken links or dead anchors	0 empty `href="#"` links; 0 broken internal router paths	PASS
Heading & Accessibility	Semantic HTML & image alts	18/18 pages have exactly one `<h1>`; 0 missing image alts	PASS
Secret & Security Scan	Zero exposed credentials	0 tokens, API keys, or private data across codebase	PASS
SEO Configuration	Discovery & dynamic metadata	robots.txt, sitemap.xml, and dynamic canonical meta tags active	PASS

VERIFICATION ITEM	TARGET REQUIREMENT	RESULT	STATUS
Form State Integrity	Honest demo-state messaging	Validates inputs; explicitly presents client-side demo confirmation	PASS

3. FACTUAL INTEGRITY & SOURCE RECONCILIATION

In accordance with the evaluation brief, client results and metrics were strictly audited against the supplied Growth Deck and external sources:

Mahima Mahajan Discrepancy Preserved: Slide 16 of the deck claims *"251% of total online revenue"*, while Slide 17 states *"International Revenue Growth: 251% per year"*. Both are documented on the live site with a NEEDS VALIDATION alert explaining the mathematical contradiction.
Ridhi Mehra Currency Discrepancy Preserved: Slide 22 states *"Scaled revenue by 72M over 7 years"* without currency denomination (INR Cr vs INR M vs USD). Flagged for client accounting clarification.
Verified Integrations: Features LimeChat, QuickReply, Razorpay, Shopify Plus, Klaviyo, and Meta. Excluded unverified entities (Pagey, Clocal) as instructed.
Lookify Verification: Confirmed live status via `lookify.in`, official Shopify App Store listing, and demo store.

4. SUBMISSION DELIVERABLES & DOCUMENTATION INDEX

All strategic plans and implementation records are maintained in the project's `docs/` repository:

DOCUMENT FILE	SUBJECT MATTER
`docs/strategy.md`	Current-site audit (`growify.in`), personas, luxury positioning & differentiation
`docs/sitemap.md`	18-route information architecture, audience segments, primary conversion CTAs
`docs/case-study-validation.md`	Mahima Mahajan & Ridhi Mehra deck audit, source reconciliation, future pipeline protocol
`docs/seo-plan.md`	9 fashion e-commerce keyword clusters, technical SEO audits, 8 authored playbooks
`docs/measurement-plan.md`	GA4 / GTM event tracking architecture, data layer schema, conversion triggers
`docs/ai-workflow.md`	AI prompting methodology, 186MB binary PDF extraction, and verification logs
`docs/implementation-report.md`	Technical handover report, build sizes, test matrices, and hosting setups
`docs/walkthrough-script.md`	2–3 minute video presentation script with exact Windows recording instructions
`README.md`	Complete repository documentation, local run instructions, and route inventory
